### OPERABLE UNIT #4 (OU4) REMEDIAL INVESTIGATION (RI) REPORT, FORMER MARCH AIR FORCE BASE (MAFB)

Dear Mr. Mook:

The Department of Toxic Substances Control (DTSC) has reviewed your OU4 RI report dated July 2004. The report address OU4 IRP sites including Sites 21, 41, 44, L, Water Towers 3410, 6601, and Former Base Hospital and Dental Clinic. The Air Force (AF) recommends no further actions for Sites 21, 41, 44, Water Towers 3410, 6601 and the Former Base Hospital and Dental Clinic. At Site L, because of the polychlorinated biphenyl contamination found in the soil, the AF proposes to restrict land use to industrial/commercial only. DTSC concurs with your findings and recommendations and does not have comments to be forwarded to you.

If you have any questions regarding this letter, please contact Mr. Stephen Niou at (714) 484-5458.

Sincerely,

Manny Alonzo, Chief  
Base Closure Unit  
Office of Military Facilities
